

POWERED PERFORMANCE.

NEW

KK500 BLACKTEC.
THE HIGH-PRECISION AND SUCCESSFUL
KK500 SYSTEM IN BLACKTEC STOCK

KK500 BLACKTEC

NEW

The high-precision and successful KK500 system in BLACKTEC stock sets new standards in terms of price-performance ratio.

A genuine match rifle at the price of an entry-level gun. Due to the many individual adjustment possibilities and the option to use the system and the stock as right- and left-handed shooter, there are no unfulfilled wishes. With its light weight, the KK500 BLACKTEC is equally suitable for all age groups.

BACKTAKE BOLT

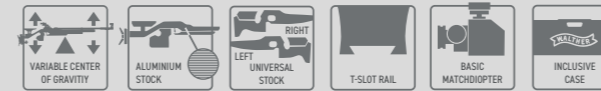

Many professional shooters have wished a loading tray combined with a short bolt. Our solution: the BACKTAKE bolt with optimized locking curve. This allows you to reload even when lying down, without having to remove your elbow from the floor. No unnecessary handling when inserting the cartridge is needed, simply place it in the loading tray and softly close the bolt handle.

KK500 BLACKTEC Item No. 2843285

- Short bolt with loading slot shifted to the rear
- Weight-optimized firing pin for shortest possible shot release times
- 3 noses lock, very smooth-running due to new surface coating
- Bolt handle and case ejection can be changed from right to left (changing of the bolt possible without tools)
- Universal stock with right/left grip
- Cheek piece for right and left-hand stop positions
- Fore-stock slidable and adjustable in height
- Cheek and backend freely adjustable in height and length
- Adjustable match trigger 50-130 g for single or two stage use
- Lightweight (5 kg), therefore suitable for all age groups
- Upgradeable by standardized connections

SOLID WALTHER FRONTSIGHT

BASIC tunnel with glass insert sight, Ø 22 mm

TRIGGER

Adjustable, mechanical match trigger, upgradable to E-trigger

VARIETY OF ACCESSORIES

The KK500 BLACKTEC is customizable with many accessories as cheek pieces, caps, fore-stocks, sights or wooden grips.

AMBI-ACTION SYSTEM (OPERABLE WITH LEFT AND RIGHT)

Control foot and body position, breathing, aim, draw: in competition, it brings decisive advantages of not open your position for reloading. Why missing points? Our new, patented AMBI-ACTION system offers you the possibility to work with the left or right hand for the first time: The bolt handle can be operated from both sides and can be changed over in a few steps - in seconds and without any tools.

BLACKTEC STOCK DESIGN

- Multiple adjustable buttstock, new plastic butt plate with optimized ergonomic geometry
- High-cut rear stock for relaxed positions and optimal recoil control

WALTHER PREMIUM QUALITY

The Walther KK500 is the flagship for our proven line of small-bore rifles. With its exclusive technical features, unequalled accuracy, new trigger and improved ergonomic stock, the KK500 is a reliable partner for shooters competing at national and international levels. It is made of high-grade materials only and crafted with highest precision and care. The result is a premium-quality competition rifle that will deliver top performance for many years to come.

With the Walther KK500 BLACKTEC you get a genuine match rifle for a sensational low price.
